#### EXECUTIVE DIRECTOR

Kathleen Illes

Dear Friend,

**The urgent need for mental health intervention has grown exponentially as the suicide rate among Americans has increased nearly 30% since 2000.** Our resolve and commitment to creating solutions through programming and intervention grow stronger each year. We are dedicated to doing everything in our power to prevent individuals from becoming statistics.

But we can't do it alone—we need your partnership. We all know someone who could benefit from increased support through mental health initiatives and a more accepting community. Join us in this mission. Become a sponsor and help transform lives.

**This year, Rebecca's Dream proudly celebrates 20 years of impact.**

Rebecca's Dream, a 501(c)3 nonprofit deeply rooted in our community, is a leading advocate for eliminating mental health stigma and promoting prevention and early intervention. Through educational programs, service referrals, videos, podcasts, and our website, we raise awareness and connect people to the help they need. We also recognize mental health champions who advance our mission.

Our mission is to *"promote awareness and compassionate understanding of depression and bipolar disorder as real diseases."*

**Your sponsorship will directly support these efforts.** Sponsorship packages range from \$500 to \$10,000 and include opportunities for corporate visibility. Recognition benefits vary depending on the level of support. Please refer to the sponsorship packet for more information.

In the next week, I'll follow up to discuss this important opportunity and to answer any questions you may have. If you'd like to connect sooner, please feel free to reach out to me or Kathleen Illes, Executive Director at 773-960-0413, [killes@rebeccasdream.org](mailto:killes@rebeccasdream.org).

Thank you for your time and consideration. With your generous contribution, Rebecca's Dream will continue "Changing the Face of Depression."

With best regards,

*The Rebecca's Dream Team*
